

Midlands Farm Holiday Cottages – Cookies and how we use them

A cookie is a small file which asks permission to be placed on your computer's hard drive.

How we use cookies

Once you agree, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs by gathering and remembering information about your preferences.

We use traffic log cookies to identify which pages are being used. This helps us analyse data about traffic to our web pages and to improve our website in order to tailor it to customer needs. We only use this information for analysis purposes and then the data is removed from the system.

Cookies help us provide you with a better experience when visiting our website, by enabling us to monitor which pages you find useful and which you do not. A cookie does not give us access to your computer or any information about you, other than the data you choose to share with us.

You can choose to accept or decline cookies. Most web browsers automatically accept cookies, but you can usually modify your browser settings to decline cookies.
